TRICK — OR — TREAT

TABLE BONUS

WIN EVERY DAY • OCT 1ST - OCT 31ST

Disclaimer: One table will be randomly selected at 1am, 1pm, 5pm and 9pm each day in October. The next hand played will be observed and the players who win the hand will receive a \$50 bonus in chips and those who lose/push on the hand will receive a \$25 bonus in chips. Only players playing at the time of the drawing will be eligible to participate. If a player is playing multiple hands at the time of the drawing, they can play up to that amount of hands or less on the bonus hand. One player per betting spot will be awarded the bonus. If there is piggybacking, it will only be awarded to the player the spot belongs to. The priority to determine payout will be: First - Main bet will always be the first priority. Second - If the player has no main bet, the side bet that they have the most money on will be used. Third - If the player bet multiple side bets for the same dollar amount, and no main bet, the side bet with the highest possible payout will be used. For example, if they bet Panda and Dragon for \$25 each, the Dragon has a larger potential payout so it would be used. Does not include Community Card Blackjack or Aces Live. Running Aces reserves all rights to cancel or modify this promotion without prior notice.
